THE BRITISH COLUMBIAN.

NO. 94. VOL. 8.] NEW WESTMINSTER, SATURDAY, FEBRUARY 27, 1869. [PRICE 1s. or 25 cts.

THIS JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony.

This paper may be read gratuitously in London at the Central Establishment of "HOLLOWAY'S PILLS AND OINTMENT," 533, Oxford Street, W. C., where advertisements and subscriptions for the same are received.

PERU.

Peru is perhaps the most extraordinary country in the world. Lima is certainly one of the most extraordinary towns. You enter its port—the harbor of Callao—over the ruins of a great city, and your best bower not improbably fetches up an old fashioned chimney-cowl as it is being weighed up "short apeak;" while the hands are loosing the fore-topsail, and the San Lorenzo headland is growing broad upon the beam. The seven miles that make the distance to the capital are traversed by an American railway train which in the cars of the New Republic, whirls you up amid the fashions of the Old Dominion. Your first Sunday you spend mainly in the bull-ring and the theatre, while on the second you go steeple-chasing at Miraflores or Bellavista, and on the third, weary of variety, simply play pyramids at Morin's, or join, if you are happily there in the season, one of those merry, graceful flower-gatherings which make Amancaes the champion pic-nic ground of this hemisphere. Or, you drive over to Chorillos—the pretty little toy town that looks as if it were nightly gathered up and packed carefully away in the box that preserves its perpetual trimness—and find rocambor a much better game than whist, and a *tertullia* a vastly preferable institution to a ten o'clock. Perhaps you even go to church, and look at the glorious carvings of the great Cathedral or the glowing canvasses of San Francisco, and puzzle over the conundrum as to why men and women divide so equally the pursuits of playing and praying. Wherever your tastes may lead they cannot but entice you into the broad path of pleasure, and the consciousness that the community in which you disport yourself is at once the most pious and the most easy-going that you have ever known, keeps up a permanent stimulus of piquancy that makes the shadow of the Cordillera marvellous exceedingly to its refugees.

The whole society is abandoned to pleasure, and, so far as a foreigner can see, devoid of any more serious aim. That is, inside the walls and round the suburbs. But, let him take horse up the valley of the Rimac, opposite the old Alameda where Columbus—in a sort of Captain Jinks fashion—bestrides eternally his bronze charger, and, past the sad gates of the Andes, and the scene is very impressively transformed. There is war—the most hopeless and meaningless of all wicked struggles, raging perpetually round the solemn old ruins of the Incas. It is chronic and aimless and desultory, and deals in pillage and murder rather than legitimate fighting, and, when you want to visit it, it is good to be well mounted and to carry a Tranter's six shooter. With such equipment it is possible to extract a selfish sort of excitement even from the nation's misery. Just as it will lull you to luxurious slumber to hear faintly the cannonade beyond the island, and to know that the Admiral is castigating the rebels, or the rebels blowing up the Admiral, you can't in the least guess which, and you don't in the slightest degree care.

Within the last three years Peru has experienced as many revolutions, besides sustaining the brunt of a formidable foreign war. Peset was uncated that Prado might rule, and the latter, having won the highest glory which his country has known since her independence, in the repulse of Nunez' squadron, was called to resist unsuccessfully the armed disaffection of General Balta in Arequipa. From the moment when the Column of Honour gave way, the fate of the Administration was sealed. The Column of Honour was composed of sixty officers of rank, who went up into the breach trusting to the bayonet alone. Ten of them shared their chief's retreat to Lima, leaving fifty cold upon the glacis. Then the capital "pronounced," and the conqueror became installed in the palace. Where as we learned he has to encounter the intrigues of his own Vice-President, and has been compelled to adopt vigorous measures to prove that he is really the chosen of the people. Wherein whether he succeeds or fails, the smiling seductive city will still maintain its luxurious langour, and the men who make its best society forget in the excitement of the *salons* the business of the council-board.

These people are totally unfitted to be entrusted with self-rule. They are the most charming social companions imaginable, but they are no more competent to govern themselves consistently than they are to forego their cigaritos at dinner. They own a country upon which Nature has been lavish beyond all comparison, and of which the single staple of guano defrays every necessary expense of government, while it supplies the lapidaries of Amsterdam with the rarest jewels that flash from their cutting. It is beyond everything sad to listen daily to the record of their misrule. And it is all but hopeless to look for any remedy, or to cast about for any suggestion that may propound some theory for their redemption. For some wise purpose South Americans are the political helots of the world. When we have learned all the wisdom their degradation can teach us it is possible their reform may be permitted. And anybody who knows the grand qualities which go to make their private lives in many respects so noble, and which have all but exiled destitution and annihilated our coarsest crimes, can but hope that this day may break for them speedily, and show us the spectacle of a kindly cultivated and large-minded people carrying into the management of their political affairs the attributes for which their visitors remember them respectfully, and which the best of us may imitate to the signal advantage of our communities.

NEWFOUNDLAND.

A correspondent of the Halifax *Express* makes the prediction that Newfoundland will come into the Union within six months. The Legislature of the island will meet shortly, when it is expected that the Government will propose terms of Union, and ask power to send delegates to Ottawa to submit the terms as sanctioned by the Legislature. It is confidently expected that the Legislature will agree to this course. If the terms of Union are accepted at Ottawa, there will be a dissolution, probably in May, to submit the whole question to the people. The writer from whom we are quoting is confident that Confederation will win in the election, and it will then only remain to ratify the verdict of the people, arrange the local constitution, and come into the Union as soon as possible. It is claimed that the Unionists have a large majority in the present Legislative Assembly, and that they have a large preponderance in the country in their favor. If so, there is no reason why Newfoundland should be "out in the cold" much longer—unless, indeed, the politicians of that Province should make the mistake of asking too much when they come to propose terms.

A CAR is being built in California for the first through trip to New York over the Pacific Railroad. The finish is to be of California laurel.

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease."
Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."
The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Then wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.
The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.
Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.
Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*
Sold by all Druggists, Grocers and Dealers throughout the world.
P. H. Drake & Co. NEW YORK, SOLE PROPRIETORS.
Redington & Co., 416 and 418 Front St. San Francisco.
Agents for California and Nevada.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.
IT KILLS INSTANTLY.
What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is
FREE FROM POISON.
No article has ever given such posivive satisfaction in its use.
Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.
The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.
Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.
No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF & WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, FRESH CUTS OR WOUNDS,
SWELLINGS,

Or any other complaints requiring external application.
FOR HORSES,
It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.
It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.
All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DEMAS BARNES & Co. over the top.
An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!
Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

NEW ADVERTISEMENTS THIS DAY

Postponed—H. V. Edmonds.

The British Columbian.

SATURDAY, FEBRUARY 27, 1869.

NOTICE.—It is requested that all claims against the Publisher of the "British Columbian" newspaper may be sent in for settlement; and all those indebted to the same are requested to make immediate payment.

EMIGRATION.

It is with deep regret we observe an apparent disinclination on the part of our own Government to make any movement towards inducing immigration into this still unpeopled Colony. It is with a feeling of keen disappointment we hear of the impression in semi-official circles that the recommendation of the Legislative Council to establish, as a first step, an Emigration and Intelligence office at the nearest great centre of population—San Francisco—is not likely to find favor in the Executive. Turning to a larger and more national scheme, we feel much pleasure in placing before our readers the following scrap, which is taken from an English newspaper:—

"The *Saturday Review* holds that emigration is the only remedy for the chronic destitution of East London; but in the extension of emigration to this class very much more caution would be necessary than in dealing with the agricultural laborer. The selection of unfit subjects for the experiment might easily bring the process into discredit both at home and in the colonies; and in the case of a district which has already to a considerable extent been drained of its able-bodied inhabitants, it will be requisite to take great care not to increase the number of those whom the loss of a son or a brother would condemn to absolute helplessness. No doubt, the East-end Emigration Committee is thoroughly alive to the importance of avoiding these dangers, but the publication of a detailed statement of the method on which they proceed might greatly enhance the flow of public liberality. It is quite time, however, that the Government should again take up the whole subject. It is not one which can be adequately handled by any subordinate agency. The interests opposed to any extensive emigration, especially of the agricultural population, are too numerous to be opposed with success, except by that complete organization which only official persons can command. Lord Granville could not better signalize his tenure of the Colonial-office than by the construction, in concert with the colonial authorities, of a system by which the opportunity of emigration should be offered to those with whom the first condition of any moral or intellectual improvement is the amelioration of that physical wretchedness in which they now live."

The above paragraph owes its chief interest to the fact that it indicates a change in the English mind regarding the mode of dealing with the gigantic evil of Pauperism, and a perusal of it will doubtless have recalled to the recollection of many a reader several articles which have appeared in this Journal. In these articles we endeavored to point out what we conceived to be the true policy of the Imperial Government towards the indigent millions at home, as well as towards the sparsely populated colonies. It appeared to us that if the millions-upon-millions-piled now being spent in the scarcely successful attempt to render life on their native soil tolerable to England's redundant millions, were only judiciously employed in a large and well-organized scheme for transferring that population to the waiting and fertile acres of the outlying possessions of the Empire, the most felicitous results would follow. It is, therefore, with peculiar gratification that we hail the first indication of the English mind awaking to a realizing sense of the practical importance of a scheme long since indicated in our own columns.

DISESTABLISHMENT.—An able writer in a London contemporary concludes an article on "The Rationale of Disestablishment," thus:—

"We have made a false start in Ireland, set out with the guidance of a wholly erroneous principle. We have put faith in the arm of flesh where the sword of the spirit alone could help us. Truth is a grain of mustard seed. It propagates only where its beginnings are the very smallest. Faith is made perfect, not through worldly power, but through spiritual suffering. The world, the State, human authority, earthly power, is but like the Ghost in *Hamlet*—

'As for my soul, what can it do to that,
Being a thing immortal as itself?'

"No—we must begin the work all over again, approach it from a different *aditus*—do as John and Paul did, speak the truth in love—believe that the kingdom of God is not without but within you—know that faith is not tithes or parsonages, deans or chapters, but the substance of things hoped for. Think, you have the Bible with you—the whole Bible, that can be in every cottage for eightpence. The schoolmaster is abroad. The thunders of the steam press are drowning the rumbling of the thunders of the Vatican. The liberty of unlicensed printing, of free speech, civil equality, are ours. *Quid times?* If with all these Popery be too many for us, then Popery is true, or, at least, it is invincible."

WITHDRAWAL OF TROOPS FROM CANADA.—It has been believed for some time past that the British troops in Canada would be removed in the spring, and in partial corroboration of the report the *Toronto Globe* says:—"It is generally anticipated in garrison that the present is the last winter that the troops will remain in this city. No official intimation of their intended removal has as yet been received, but unofficial correspondence from England has of late frequently pointed to this anticipation. The rumor is, that all the troops west of Kingston will be entirely withdrawn in the spring, and that the latter point will be still maintained as the head-quarters of the Royal Canadian Rifles. Quebec, Montreal and Halifax are the only points which it is intended, according to the same report, to garrison with regiments of the line."

FIVE Indian Chiefs, three Iroquois and two Algonquins, lately called upon Sir John Young, to congratulate him on his assuming his position as Governor. Four of them were decorated with wampum belts of great antiquity, one of them indicating a treaty of amity with Great Britain concluded with this nation on crossing into Canada from the old colonies, now the United States. They were kindly received by Sir John Young, and felt much gratified.

The Kincardine Salt Prospecting Company commenced manufacturing at their well, in Kincardine, on the 16th ult., with a block of 24 kettles. The result was most satisfactory. The brine is of great strength, and the salt equal in all respects to the Goderich salt. They expect to turn out about 25 barrels per day.

Waltham watches and Ayer's Pills are said to be the highest specimens of American art, each of their kind; one in mechanics and the other in medicine. With a Waltham watch in one pocket and a box of Ayer's Pills in the other, you should be at your work in season with health to pursue it.—*Advertiser*, Norway, Me.

The British Columbian.

SATURDAY, FEBRUARY 27, 1869.

PUBLIC MEETING.—Mr. Robson will be happy to meet the people of New Westminster, on Wednesday evening, in the Hyack Hall, at 8 o'clock, for the purpose of addressing them upon the "situation."

VALEDICTORY.

It is now a little over eight years since we commenced the publication of the BRITISH COLUMBIAN newspaper in this city. During that period it has been our aim to advance the interests of the Colony in general, and those of this portion of it in particular. That our endeavours have been appreciated we have had abundant evidence. That these endeavours have, in some measure, failed in attaining the desired result is owing to circumstances which we could not control. New Westminster has ceased to be a favorable base from which to advocate the broader political questions of the day, and we reluctantly seek the centre of population and commerce, with the hope of attaining a wider range of usefulness. In doing this we merely change the base of operations, without relinquishing any great principles; and although necessarily residing in another town, we hope to be in a better position to promote the interests of New Westminster, in common with every other part of this our adopted Colony.

THE LEGISLATIVE COUNCIL.

Inasmuch as the steamer only arrived this morning, we are unable to place before our readers anything like a summary of the proceedings of the Council for the week. The mere mention of a few of the more important matters must, therefore, suffice. The School Bill has passed through all its stages. The Mining Bill has been sent up to the Governor; and it is apprehended that it will be sent down again to the Council with certain amendments. The Victoria Water Supply Bill has been "fathered" by the Government. The Road Tax Bill has passed through Committee. The Supreme Courts Bill, as first sent down to the Council, has been forced through by a strictly government vote! The Loan Bill has passed through Committee. During several days this week the Council met at 11 a.m. sitting till 11 p.m. with short intermissions for refreshments. It is possible that the House will be prorogued a week from to-day; but it is highly probable that it will continue in session for a few days longer, as there are a number of Bills that can hardly be got through within the week.

CARIBOO.

By Barnard's Express, which arrived on Thursday evening, we have files of the *Sentinel* to the 13th inst. The

MINING INTELLIGENCE

is meagre. On Williams Creek, for the week ending 6th inst., the Barker co. washed up 94oz.; the Baldhead co. 66oz.; the Canadian co. 41oz., and the Cariboo co. 40oz.

For the same week the Floyd co., on Stout's Gulch, washed up 36oz.

For the following week, ending Feb. 13th, the wash-ups on Williams Creek were: Baldhead 114oz.; Barker 75oz.; Canadian, 61oz.; Sheepshead 22 oz., and Cariboo 22oz.

On Stout's Gulch, the Floyd co. washed up 48oz.

On Keithley's Creek some eight or ten companies are taking out more or less pay. A small train had arrived from the Forks of Quesnel. Flour was selling at 35cts.

MISCELLANEOUS INTELLIGENCE.

The Rev. Mr. Derrick had delivered another highly instructive and entertaining lecture. The subject was "Stumbling Blocks, and how to remove them." It is proposed to form a company, consisting of fifty or seventy-five members, to prospect Willow river, below Mosquito. A meeting was held on the 8th, in Messrs. Stirling & Barry's Saloon, for the purpose of ascertaining the opinions of the inhabitants of Cariboo, as to the contemplated lease of the "Meadows"—about two hundred persons were present. Mr. Commissioner Brew, after informing the meeting that he had been requested by the government to ascertain the opinions of the miners on the subject, read the application, signed by Messrs. Barnard, Leneveu, Stamp, Adair and Meacham, asking for a lease for 21 years, of the ground from hill to hill, running from the Ballarat claim to the mouth of Mosquito, together with a remission of duties and road tolls on any machinery imported for working the same. The applicants stated that they intended to form a joint stock company and procure requisite steam machinery for working the ground. Mr. Brew also read a letter from the Colonial Secretary, requesting advice as to the propriety of making so large a grant; he then said that he left the subject in the hands of the public, and if they chose to organize and report their opinions to him, he would communicate the result to the proper quarter. A Chairman and Secretary, having been appointed, an animated debate followed; after which it was moved that "the sense of the meeting be taken as to whether any grant should be given, and a committee appointed to prepare a report in accordance with the vote," in amendment it was moved "that this meeting advocates a grant of two miles to the present applicants, under proper restrictions." The amendment was then put, and lost by a very close division. The committee, appointed in pursuance of the original resolution, handed in a report in which it was stated that, in their opinion, it would be unwise and detrimental to mining interests in Cariboo that this grant should be made. They at the same time wished to express their opinion that a grant to the gentlemen in question of not more than two miles of the ground asked for, would be favorably received by a very large minority in Cariboo. The report concluded by returning thanks to the Government and particularly to the Gold Commissioner for the kind and considerate way in which the miners had been treated in the affair. On the 4th a very successful musical and literary entertainment, under the direction of the Rev. Mr. Reynard, was given in the Theatre Royal. The weather continued mild and pleasant.

INFORMATION WANTED.—The last mail brought a letter from Canada, seeking for information respecting Alexander Cameron, who came to this Colony eight years ago, and is said to have died suddenly. Any information respecting the said Alexander Cameron, or the circumstances under which he died (if dead), will be thankfully received by his only brother, John Cameron, near Brucefield, Township of Stanley, Ontario, Canada; or, if such information be sent to the publisher of this Journal it will receive due attention.—The Cariboo *Sentinel* will confer a favor by directing attention to this matter.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria this morning, bringing a small freight and a few passengers. Amongst the passengers was Mr. G. B. Wright who goes up for the purpose of transferring the machinery of the str. Prince of Wales to the new str. on the Upper Fraser.

DURING the past week the weather has been clear and frosty; rather chilly at night, but thoroughly enjoyable during the sunshiny hours.

THE BRIGHTON ROAD, owing to the light frost which has prevailed latterly, is again passable and Lewis' stage is making regular trips.

FROM YALE.—We have files of the *Examiner* to the 22nd. The weather was pleasant. There is no news.

NO MAIL.—The str. Active arrived at Victoria yesterday afternoon, but brought no Eastern mail.

THE NORTH-WEST TERRITORY.

We copy the following from the London *Daily News* of the 10th Dec. It is doubtless true, as therein stated, that the change of government in Britain will delay the settlement of the Hudson's Bay Territory question; but we do not anticipate that it will have any injurious influence on the final terms of arrangement:

"It seems probable that if Mr. Disraeli and his colleagues had postponed their resignation till after the new House of Commons formally declared its want of confidence in them, the public might have been informed that a settlement was effected between the Government of Canada and the Hudson's Bay Company. As the public is aware, negotiations have been on foot during the past few weeks having for their object, the termination of a long and bitter controversy which that Company has had with the Canadian people. The change of Ministry prior to the final arrangements being concluded must lead to a reconsideration of the points at issue. While many just complaints may be made of the delays thus occasionsd, it is but fair to remember the advantages gained, when a matter of Imperial importance has been duly considered by the official representatives of our two great parties.

"Now to reconcile the rational demands of the Canadians on the one hand with the expectations of the shareholders in the Hudson's Bay Company on the other, is a problem which it is far more easy to state than to solve. For many years back the Company has been to Canadians what a hob-goblin is to children, scaring them from the possessions they account their own, but hesitate to occupy. Since the confederation of the several provinces, the occupation of the Western territories by that Company has been regarded by the General Parliament as a burden not less grievous than was the Old Man of the Sea to Sinbad. They allege that their destiny is marred because a grand field for the display of their energies is closed against them. Westward they would follow the track of Empire, but the monopoly of the Hudson's Bay Company is the bar of their progress. The more imaginative and ambitious spirits among them wish that the Dominion of Canada should be bounded by the North Pole, the Atlantic and the Pacific Oceans, and chafe at the barrier raised up against them in two directions by a trading company which stands on its alleged ancient rights, without proving by its action that it is prepared to spread abroad the benefits of civilization over its territory. That the most fertile land in the world should be the breeding place of wild animals merely because Charles II. granted a charter in 1670 to a company of adventures is, they say, contrary alike to sound policy and common sense. In order to put an end to this state of things two members of the Canadian Government, Sir George E. Cartier and the Hon. Mr. Macdougall, who were empowered to come to an understanding on the subject, recently arrived here and stated their case in the proper quarters. We believe the Duke of Buckingham sent the ultimatum of the late Government to the Directors of the Hudson's Bay Company shortly before leaving office. As he ceased to be secretary for the colonies, and as the Governor of the Company has now become Lord Privy Seal, being thereby precluded from continuing his connection with the Company, the whole case must again be reviewed from the beginning before the Ministry of Mr. Gladstone arrives at a decision.

"It is obvious that the Hudson's Bay shareholders are neither to part with their privileges without proper compensation, nor to accept the interpretations put upon their claims by many persons in Canada and elsewhere. They naturally consider themselves entitled to make a handsome profit by whatever transaction is entered into by the representatives. With them then, the question at issue is simply a breeches-pocket one. Let them be well paid, and they will be satisfied. In general terms, no one can be disposed to quarrel with this notion. The difficulty, however, consists of fixing upon a standard of remuneration which all parties would deem equitable. As a rule, every shareholder is more or less another Alaschar. He dreams of golden returns as the result of his small investment. Not unfrequently in the ecstacy caused by his vision, he irretrievably damages his prospects by a rash step. Such may be the fate of the Hudson's Bay shareholders should they be too exacting in their demands. If the control of Canada over their property be to them a mere monetary question, to the Canadians it is emphatically a matter of grave public policy. That the colonization of a fertile tract of territory, should be effected, and that a settled government should have authority in that territory, are to them objects of paramount importance. It is the attainment of these ends that the government must aim at. Let existing rights be scrupulously respected, and vested interests receive adequate consideration. But let it also be remembered that rich lands, whereon at least thirty millions of people can settle and live in comfort, will not long remain shut against those who would make their homes there. To keep the question open is to make the final solution the more difficult, or rather it is to hold out inducements to unruly sprits to take the law in their own hands, and thereby at once hasten and simplify the solution in a manner which might be very startling to the Hudson's Bay proprietors."

HOLLOWAY'S PILLS. — Restorative Treatment. — It has been confirmed by the experience of thirty years that these Pills constitute the best alterative and tonic medicine hitherto available by the public. It is enough to say that a short course of these purifying Pills, has in numberless cases, been marked by the most gratifying results, when the invalids were becoming daily weaker and worse, though no particular disease could be detected. Holloway's Pills purify the source of life, re-kindle the failing energies, revive the sick and delicate, and raise up the broken down. This medicine is especially recommendable because it is so well suited to the community at large, and its innocent nature precludes the possibility of its causing mischief under any circumstances whatever.

ALL OVE

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its attendants, Headache, Heartburn, Fevered Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhœa, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Another wonderful ingredient of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all side, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is Put up only in our $2 cedon bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York,
Sole Proprietors.

Redington & Co., San Francisco, Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, thrilling, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING:

"I take pleasure in commending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWITT,
Foreman for Amer'n, Wells, Fargo's & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." ED. SELLY,
Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look CAREFULLY!

Sold by all Druggists and Storekeepers. 25 & 50cts. and $1

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROHR, Esq., Superintendent of the New York City Hospital, says: "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPRIETORS say: "We have used
LYON'S MAGNETIC POWDER
for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used, it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

A. W. PIPER,

CONFECTIONER,

NO ADVANCE IN PRICES,
TARIFF OR NO TARIFF!

Orders from the Interior are solicited and will receive prompt attention.
Victoria, July 23d 1868. tc

OH, HEED NOT WOMAN'S FROWN.

Oh, heed not woman's frown,
It once she smiled on thee;
She will not crush the bright hopes down,
Where thou hast bent the knee.
'Tis but the passing cloud,
That o'er the sunbright bay
Shall fling awhile its April shroud,
Then melt in tears away.

And think not woman's love
Is always gay and bright,
Like brooks whose waves below, above,
Are ever bathed in light;
No, 'tis a deeper stream,
And though athwart its tide
The shadows fall, and sunbeams gleam,
It will not turn aside.

Then trust in woman's heart
Where'er her love hath shone,
It comes not with a glow and start,
But steadfastly burns on;
And though its shadows may
Some moments cast thee down,
Up, dreamer, fling thy doubts away,
And heed not woman's frown!

—Weekly Dispatch.

HIGHWAYMEN.

There was seldom great daring in the robberies of the highwaymen. They were but poor humbugs. They had houses of intelligence; they had ostlers, drivers of waggons and packhorses, innkeepers, barmaids, turnpike men and carriers in their pay. They did not attack armed travellers, if they could help it, and when they did so they generally did it by surprise or by force of numbers. They obtained heavy purses and rich boxes of plate, but they had to cast money away by handfuls to their spies and constables who tolerated them or aided their escapes. Wild drinking and gambling were the desperate reactions from their dangers and their days of starvation and short commons. Then came the gallops, the short cuts, the flying of gates and brooks, the fording of rivers, to get by moonlight to Hounslow; with every bridle path, and field, and hedge of which district every highwaymen was familiar. Then they dashed up to some coach and exchanged shots, or they rammed the pistols through the glass windows and frightened the ladies into fits and the men into submission. The watch was drawn from the boot, the jewels from under the cushion; they tossed the spoil into their deep pannier pockets, cursed, threatened, and dashed off. Then eventually they were leaped on in some brandy shop parlor or were torn down in a hue and cry, or were felled by some despairing man, or were betrayed by some jealous mistress. Next came the hard jury and the steelfaced judge, the dim stone-room, the staring faces of quidnuncs and heartless men of fashion, the last revel with the turnkey and perhaps the chaplain (for those were odd times), then the unrivetting of the fetters, the presentation of the nosegay, the bellman's mechanical verses, and the grim ride backward up Holborn-hill to Tyburn.—*All the Year Round.*

Two students, about 20 years old, killed each other in a duel at Sharpsburg, Ky., after a school exhibition on Christmas eve. They were warm personal friends, and had acquitted themselves with honour during the evening. After the exhibition was over they became excited by liquor, and quarrelled. Each took a pistol from a bystander, and took positions on each side of the street, about 100 feet apart. The first fire of each was harmless. They then fired about the same time and were both instantly killed. One was shot through the head and the other through the heart. This occurred about 12 o'clock at night, and on Saturday the two friends were followed to the same graveyard.

AN EVENT OF THRILLING INTEREST.—The Prince of Reuss, younger line—that is, Schleiz—has, we learn with deep interest, instituted a special distinction for his "contingent," consisting of a yellow buckle with the name of the Sovereign himself upon it. We are at this moment somewhat uncertain about the actual strength of this army; but we know that they possess certain war horses, and one, if not several, guns of their own. Combined with the forces of the older line—that is, Greiz—they would make a fine show, especially with their new buckles on.—*Pall Mall Gazette.*

FISHING is prosperous on the north and south shores of Lake Superior. At this season neither barrels nor salt are required, the fish being allowed to freeze hard, when they are ready for transportation.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsias and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

ADDRESS
TO THE
NERVOUS AND DEBILITATED
WHOSE
SUFFERINGS HAVE BEEN PROTRACTED,
AND WHOSE CASES
REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, moping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S
FLUID EXTRACT BUCHU IS THE
GREAT DIURETIC,
AND IS
A CERTAIN CURE FOR
Diseases of the Bladder,
Kidneys,
Gravel,
Dropsy,

Ayer's
SARSAPARILLA,
THE WORLD'S GREAT REMEDY FOR
Scrofula and Scrofulous Diseases.

From Emery Eccs, a well-known merchant of Orford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome *humor* in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Stout, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Clara S. Van Lieu, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him

Leucorrhœa, Whites, Female Weakness,

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S
CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

ADVICE GRATIS!
HOLLOWAY'S PILLS

To Purify The Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by their surereal ereand exhilirating influence of this medici.

Female Complaints.

All disorders of the sex, and diseases in every crisis peculiar to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk of trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPS.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains sedonyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the suffered feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualities may arise, and the sufferer be consigned to a bed of sickness in all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints rising from these organs.

Puffy, Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities.	Scrofula, or King's Evil.
Asthma,	Fevers of all Kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloreaux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Liver Complaints,	Venereal Affections,
Debility,	Lumbago,	Worms of all kinds,
Dropsy,	Piles,	Weakness from whatever cause,
Dysentery,	Rheumatism,	&c., &c.
Erysipelas,	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

CURE IS AT HAND!
HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat,—and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkably speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous ungnent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore-throats,
Bunions,	Fistulas,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Gout,	Scurvy,
Coco-bay,	Glandular Swellings,	Sore-heads,
Chigoe foot,	Lumbago,	Tumors,
Chigoe (nigua),	Piles,	Ulcers,
Chiego,	Rheumatism,	Wounds,
Chigoe ms,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

☞ There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

Miscellaneous.

A lone man—The pawnbroker.

Carpets are bought by the yard and worn by the foot.

Liquor should only be given to men who are not given to Liquor.

When is a lawyer most like a donkey?—When he's drawing a conveyance.

Political economy—A candidate expecting the electors to pay his expenses.

Ice has formed an inch thick at St. Augustine, Florida, this year, the weather having been colder than for 38 years.

At a recent trial in Omaha, the jury brought in a verdict of not guilty, but added, "but if the prisoner is ever found in this locality he'll leave the territory before he can get out." He left.

A pickpocket in New Orleans stole a portemonnaie containing a few dollars, from a lady's pocket, and, by accident, dropped in its place a valuable diamond ring.

The letter carriers of New York have just been furnished with uniforms which gives them a military appearance, and induces the small boys in the streets to shout after them, "How are you, Ker-nel!"

A Cleveland newspaper advertized the other day, that they would send a copy of their paper gratis to any one sending them a "club of ten." A young lady replied to this and sent the editor the ten of clubs.

A little boy, on coming home from church where he had seen a person performing on an organ, said to his mother, "Oh, mammy, I wish you had been at church to-day, to see the fun. A man was pumping music out of an old cupboard!"

A workman in Illinois, who was made the spokesman of his fellows in presenting a watch to the timekeeper of the works, made this very happy speech: "Bedad, boss, we thrust the watch will keep as good time for yies as yies have kept for us this many a year."

COURTEOUS.—The Boston *Post* declares that "New York has become so wicked that they have been obliged to widen Hell Gate." The N. Y. *Times* says that the *Post* may be just in its inference, because the object of the widening is to make broader the road to Boston.

AN Irishman, on arriving in America, took a fancy to the Yankee girls, and wrote to his wife, "Dear Norah: These melancholy lines are to inform you that I died yesterday, and hope you are enjoying the same blessing. I recommend you to marry Jemmy O'Rourke, and take care of the childer. From your affectionate husband till death."

A remarkable discovery of ancient coins has been made near Winona, Minesota. Two gentlemen while visiting a stone quarry had their attention drawn to a rock of oval shape, four feet in diameter, deeply imbedded, and surmounted by a closely fitting cap exactly its size, and about six inches thick. They pried it open and discovered coins of European and Central American countries, of many years ago.

A late Judge, whose personal appearance was as unprepossessing as his legal knowledge was profound and his intellect keen, interrupted a female witness—"Humbugged you! my good woman, what do you mean by that?" said he, sternly, "Well, your honor," replied the woman, "I don't know how to explain exactly; but if a girl called your honor a handsome man, now, she would be humbugging you."

HINDOO – ENGLISH POETRY.—Mr. Dilke, in his "Greater Britain," publishes a curious confirmation of what Mr. Trevelyan stated about the singular and diverting attempts at writing classical English, made by the young Hindoos. It now appears that, not content with imitating the prose of Addison and "Rasselas," they are turning their attention to verses. The *Punjaub Times* publishes in its poet's corner a serenade beginning with "Emerge, my love," and ending thus:—

"Then, Leila, come! nor longer cogitate;
Thy egress let no scruples dire retard;
Contiguous to the portals of thy gate
Suspensively I supplicate regard."

TIGHT BINDING
